Listing of Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (currently amended) A method for treating burn pain, the method comprising the step of local administration of an effective amount of a botulinum toxin to a mammal, thereby treating burn pain.

2-3. (canceled).

4. (previously presented) The method of claim 1, wherein the botulinum toxin is selected from the group consisting of botulinum toxin types A, B, C₁, D, E, F and G.

5. (previously presented) The method of claim 1, wherein the botulinum toxin is botulinum toxin type A.

6-8. (canceled)

9. (currently amended) The method of claim 1, wherein the pain is ~~substantially~~ alleviated for between about 1 month and about 6 months.

10-11. (canceled)

12. (currently amended) A method for alleviating a burn pain, the method comprising the step of peripheral administration of an effective amount of a botulinum toxin type A to a human patient, thereby alleviating a burn pain.

13. (previously presented) The method of claim 12, wherein the botulinum is toxin selected from the group consisting of botulinum toxin types A, B, C₁, D, E, F and G.

PATENT

14-27. (canceled)

28. (previously presented) The method of claim 1, wherein the step of administration of botulinum toxin is carried out by peripheral administration of the botulinum toxin.

29. (previously presented) The method of claim 28, wherein the peripheral administration of the botulinum toxin is carried out by intramuscular administration of the botulinum toxin.

30. (previously presented) The method of claim 29, wherein the intramuscular administration of the botulinum toxin is carried out by intramuscular administration of the botulinum toxin into the region of the burn pain.

31. (currently amended) A method for treating a burn pain, the method comprising the step of local administration of an effective amount of a botulinum toxin to a region of a burn, thereby treating burn pain.

32. (currently amended) The method of claim 31 ~~[[33]]~~, wherein the botulinum toxin is a botulinum toxin type A.

33. (new) A method for treating a burn pain, the method comprising local administration of an effective amount of a botulinum toxin and no other pain alleviating agent, thereby treating the burn pain.

34. (new) The method of claim 33, wherein the botulinum toxin is selected from the group consisting of botulinum toxin types A, B, C₁, D, E, F and G.

**DOCKET NO.: 17328 CON3
ALLE0032-100**

PATENT

35. (new) The method of claim 33, wherein the botulinum toxin is botulinum toxin type A.

36. (new) A method for treating a burn pain, the method comprising local administration of 30 to 200 units of a botulinum toxin and no other pain alleviating agent, thereby treating the burn pain.
